# What We Will Cover In This Session

- How to explain absolutely anything
- Production code vs. Demonstration code
- Presentation Structure

# How To Explain Anything
# Decompose the Presentation

# How To Explain Anything
# Decompose the Presentation

# Production Code vs. Demonstration Code

```
private void Production(string virtualHardDiskPath)
{
    VMVirtualPC virtualPC = new VMVirtualPC();

    try
    {
        VMHardDisk virtualHardDisk =
            virtualPC.GetHardDisk(virtualHardDiskPath);
    }
    catch (FileNotFoundException)
    {
        throw new ApplicationException(String.Format(
            "Virtual Hard Disk file not found ({0})", virtualHardDiskPath));
    }
}
```

```
private void Demonstration()
{
    VMVirtualPC virtualPC = new VMVirtualPC();

    VMHardDisk virtualHardDisk =
        virtualPC.GetHardDisk(@"c:\Temp\Win7Ultimate.vhd");
}
```

# Summary

- Break subjects down into atomic parts
  - Explain a single piece of information at a time
- Demonstration code is not production code
- Cover each subject within 10 minutes
  - Mix slides and demonstrations together
